

Holborough Valley

**Snodlands, Kent &
The Hamptons, Worcester
Park, Surrey.**

Both the above projects are exclusive housing developments, the former built by St.James Homes, the latter by Berkeley Homes.

Both companies are part of the Berkeley Group. Both developments are designed to emulate the 'New England' look with painted timber clad houses with porches and colonnades.

At Holborough we have carried out the installation of the Rills and Water Feature to the Boulevard as well as the soft landscaping.

The Hamptons is a similar development to Holborough. We are implementing the soft landscaping, fencing and in addition are creating a decked area with viewing platform around a small lake.

These projects are on going.
