

## Queen Mary's Place Roehampton London

**Queen Mary's Place** is a development of newly built and refurbished apartments and houses set within the distinguished grounds of Roehampton House, a prestigious Grade I listed building re-developed by St James Homes.

We have worked closely with the client to install a sympathetic soft landscape scheme around both new and Listed buildings which includes both a traditional rose garden, hedging and semi mature specimen trees and shrubs.

The installation of hardwood planters, pergolas and a water feature to the courtyard areas complement the new build aspect of the scheme.
