

Godalming Surrey

**A private garden designed
by Cherry Mills and
photographed by Ann Hardy**

The scheme comprised:
Granite paving inlaid with slate
strips; Rendered retaining
walls; Cedar benches built
into retaining walls; Glass
cube water feature and lower
pond with connecting
waterfall; Timber pergola
walkway;

The garden was fully irrigated
with both drip lines and pop
up sprinklers and included a
comprehensive lighting design.

The garden was then laid to
lawn and planted thus
completing this stunning
design.
