

Development St. James's Street

Architects – Obbard

A prestigious development in St. James's Street SW1 above L'Oranger restaurant.

The existing building was re-modelled and developed to include a lift through the centre to access two flats and a penthouse suite on the top floors.

During the 18 month development period, the flats were constructed to a very high standard consistent with the location including fitted furniture, computer controlled lighting and air conditioning throughout.
